WEB
DEVELOPER

ABOUT ME

It's not about me, it's about you.

I build websites, emails, and online user experiences. But more than that, I build tools that can go to work for you. I'll listen to what problems you face today and your hopes for the future, then deliver functional web assets created to meet your business goals.

Because everything I do, I do it for you.

SKILLS AND ABILITIES

HTML5, CSS3, Sass, responsive HTML email, JavaScript, jQuery, Git, WordPress, PHP, Bootstrap, Gulp, Responsive design, experience mapping, interaction design, Photoshop
